A Note from Your Fairview PTO

Hello Fairview Families,

Thank you to everyone who came out to Fairview's annual Boo Bash on October 25! The costumes were fabulous, the Candy Wheel was spinning *non-stop*, the music was pumping, and there were some awesome moves out on that dance floor!

Thank you especially to all of the volunteers who helped to make it a fun time for all, and to Gathered, Sweet T's Bakery, and Hubby's Dog House for the generous raffle prize donations!

November is another busy month. Our next Dine & Share is this Tuesday at Station 34 Pizza on Main Street. Please be sure to stop by and dine in or carry out from 2 p.m. - 8 p.m. to help support more fun programs and activities from your Fairview PTO (see attached flyer for more information).

Our next Special Lunch from Jimmy John's also is coming up next week, so no need to pack those lunches on Friday for everyone who ordered!

Thank you. Have a great weekend!

The Fairview PTO Proudly presents...

Laura Dershewitz and Susan Romberg

Fairview Elementary is delighted to welcome authors Laura Dershewitz and Susan Romberg on Tuesday, December 17th. Ms. Dershewitz and Ms. Romberg will talk with students about their careers as authors and their new book, *The House That Cleaned Itself: The True Story of Frances Gabe's (Mostly) Marvelous Invention*.

To guarantee a personalized copy of their book, please return this order form with payment (cash or check payable to Fairview PTO) by Monday, December 2nd. If you miss that date, there will be a limited supply of books available for purchase on the day of the visit.

The House That Cleaned Itself: The True Story of Frances Gabe's (Mostly) Marvelous Invention (Hardcover) \$17.99—\$14.39

Like most of us, Frances Gabe detested housework -- she found cleaning a "nerve-twangling bore". Unlike most of us, she invented a contraption to free herself from this tedious task forever: a self-cleaning house Gabe's wacky, wonderful home included almost 70 new patented inventions, from a soap-spraying sprinkler in the ceiling to a kitchen cabinet that washed, dried, and stored dishes all in one place. Though Gabe's invention didn't catch on, her determination and clever thinking remind us that we don't have to accept the world as it is; we can improve it using our minds and our own two hands.

Privacy & Security

PRIVACY & SECURITY

We care about everyone's privacy.

Digital citizenship: Thinking critically and using technology responsibly to learn, create, and participate

Instructions

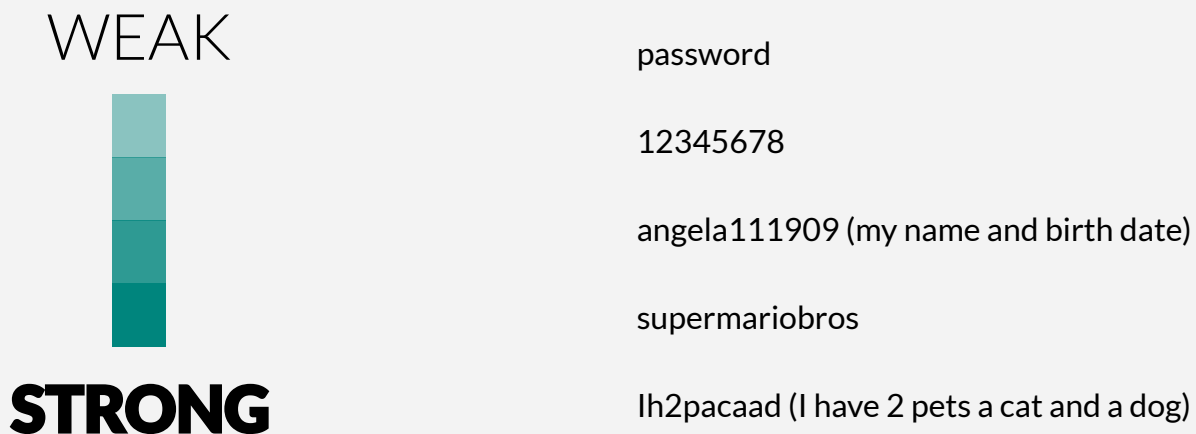

Strong passwords are important. Decide which passwords are strongest. Get one or more family members together to help. Read the setup before doing the activity together!

Setup

Read aloud: First, it's important to only share passwords with trusted adults. We don't share with friends or log into someone else's account. Then, think about the passwords we use online. We don't want them to be too easy for someone else to figure out. It's best to think of a phrase that's easy to remember. Then we can use the first letter of each word to create our password. Including numbers helps, too. Are our passwords strong enough?

Activity

Read aloud: Let's look at these passwords and draw a line to where they fall on the strong scale.

Let's talk about which ones are the strongest and why. Which two are definitely too simple? Which one has letters and numbers but also easy-to-find personal information? Which one could use some numbers? And which one has the first letters of a phrase with numbers? (That's the strongest!)
