RE: Planned Asbestos Abatement Work at Lincoln Middle School

Date: May 26, 2020

Asbestos Abatement work is scheduled to be completed at Lincoln Middle School to facilitate replacement of an air handling unit. The work is scheduled to start on June 10, 2020 and be completed by approximately June 17, 2020.

The work will be completed by Celtic Environmental Inc, a professional asbestos abatement firm that is licensed by the Illinois Department of Public Health (IDPH). Mount Prospect School District 57 has also retained an independent third party environmental consulting firm, Ramboll US Corporation (Ramboll) to oversee the project, conduct daily air sampling and ensure that the work is performed in accordance with applicable rules and regulations. A representative of Ramboll will be on-site full time monitoring the asbestos contractors work procedures.

During the abatement process, the regulations of IDPH, the Occupational Safety and Health Administration (OSHA), the Environmental Protection Agency and local agencies will be followed. The asbestos abatement area will be cordoned off physically from the remainder of the building and warning signs will be posted.

We appreciate your cooperation and patience during this anticipated project. If you have any questions or require additional information, please feel free to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Adam Parisi".

Adam Parisi, Ed.S.  
Assistant Superintendent for  
Finance and Operations/CSBO and Treasurer
