

LINCOLN MIDDLE SCHOOL NEWSLETTER

Paul Suminski, Principal

November 16, 2018

Randy Steen, Asst. Principal

Office: (847) 394-7350

Lincoln Middle School

FAX: (847) 394-7358

See you on the 26th!

Principal's Message . . .

Dear Lincoln Families,

These wishes may seem trite, but please know they are sincere—the Lincoln staff hopes that all Lincoln families are able to set aside a little time to celebrate one another and enjoy a very Happy Thanksgiving break. I, personally, am looking forward to plenty of food, football, and relaxation! See you on the 26th!

Happy Thanksgiving,

Paul Suminski

According to the Illinois Department of Public Health (IDPH), most people who get the flu recover completely in 1 to 2 weeks, but some people develop serious and potentially life-threatening medical complications. During most flu seasons, which typically run from October through May, between 10 percent and 20 percent of the population is infected with influenza viruses. More than 200,000 people are hospitalized from flu complications each year in the U.S.

Talk to your doctor about getting a flu shot.

SOARing into Thanksgiving!

HOUR
OF
CODE

The HOUR OF CODE is coming to Prospect

#HourOfCode

Prospect High School, in celebration of the globally recognized Computer Science Education Week, will be hosting a community “Hour of Code” event for students and parents (Kindergarten and up) on **Wednesday, December 5th from 6:30-8:00 PM.**

The Hour of Code is a one-hour introduction to Computer Science, designed to demystify coding and show that anybody can learn the basics. At Prospect, we believe that every student should have the opportunity to learn Computer Science as it is a foundational skill that all students need in today’s world. In addition, computer coding helps to nurture problem-solving, critical-thinking skills, logic, and creativity.

#PHSSpark

The Hour of Code experience at Prospect High School will provide parents and children with an opportunity to sit side-by-side in our computer labs while working through fun tutorials that will allow the participants to modify and/or create games and other programs.

No prior experience is necessary. This fun, globally-recognized activity is truly designed for people of all ages and all ability levels. All you need to do is show up and we’ll take care of the rest.

There is no cost to attend and people can register at:
<https://tinyurl.com/PHSHourofCode2018>
