

# Sight Word Chants & Voices

## Cheer the Word

Say each letter, then the whole word. Cheer the words by placing hands up for tall letters (blue sky letters). Hands at hips for short letters (green grass letters). Hands down at your sides for letters that fall below the bottom line (dirt or mud letters).

## Ghostly Words

Say each letter slowly like a ghost. Then, say the whole word loudly like you would scare someone!

## Army

March for each letter, then stand and salute when you say the word.

## Basketball

Dribble the letters, then shoot the word!

## Baseball

Pitch each letter, then swing the bat and say the word. Now watch your homerun go out of the park!

## Yo-yo!

Pretend to use a yo-yo. Each time the yo-yo goes down you say the letter. Then, do a "loop-de-loop" when you say the whole word!

## Rocket Launch

Start bent knee on at the floor. As you say each letter get a little higher. Then, blast off into the air as you say the word!

## The Champion

Box each letter. Then, while you say the word put both hands in the air as the champion would do.

## Volcano

Start low to ground and rise slowly as you say each word. Have your arms go up and around and "explode" while you say the word.

## Alligator Chomps!

Stretch out your hands in front of you and pretend to chop each letter, then say the whole word loudly and clap!

## Swimming Words

Make your arms do the swimming motion in front of you for each letter. Then, squiggle down to the ground with one hand over your head and the other holding your nose while you say the word.

## Workout Words

Pretend to be lifting weights for each letter of the word. Then when you say the word lift the weight over your head. Be dramatic as you struggle to lift the word!

## Kisses

Blow a kiss for each letter with alternating hands. Then, do a two handed kiss and extend out both arms to say the word.

## Motorcycle

Pretend to hang on to the handlebars and do a wheelie for each letter. Then zoom off and say the word.

## Hula

Do the hula motion from one side to the other for each letter. Then, put your arms out to both sides when you say the word.

You can also practice reading your words with some silly voices.
